

SUSTAINABILITY

Environmentally Sound Practices

Social Responsibility

Economic Viability

“Starmont’s commitment to green farming and sustainability is a celebration of the natural balance and harmony of the vineyards. Our goal is to sustain and improve the environment for future generations by being good stewards of our land and water, while showcasing the purest expression of site in our wines. We have taken the following steps to follow through with our commitment, and we encourage our neighbors and partners to do the same.”

—René Schlatter, Proprietor & CEO

- ★ **COMPOSTING** for organic macro and micro-nutrient additions
